

# UNDERSTANDING YOUR COMMUNITY SOLAR BILL

For a 2-bill option, you will receive 1 bill from your utility (electricity delivery) and 1 bill from Nautilus Solar (Solar Credits earned minus your discount).

## YOUR 2-BILL TIMING

Often there is a lag of one or two months between when the **Solar Credits are earned** in a billing cycle and when the **Solar Credits are invoiced** by Nautilus. This lag is because the Solar Credits are transferred between your local utility company and Nautilus as part of the community solar program.

	BILLING PERIOD 11/26/22-12/29/22	INVOICE #1 1/6/23 - 1/26/23	INVOICE #2 1/13/23 - 1/23/23
● USAGE PERIOD	Total kWh used		
● UTILITY INVOICE #1		Supply + Delivery costs + Solar Credits earned (in kWh)	
● NAUTILUS INVOICE #2			Solar Credits billed- 10% Discount (in \$)

**NOTE:** The billing period on your utility bill and the Nautilus Solar bill may vary slightly. The utility bill is based on the read dates of the electricity used. The Nautilus Solar bill is based on the electricity generation period of the solar farm.

**Potomac Edison** Bill Based On: ESTIMATED METER READING, eBill  
 A FirstEnergy Company

January 06, 2023  
 Account Number:  
 Amount Due: \$124.67  
 Due Date: January 26, 2023

Billing Period: Nov 26 to Dec 29, 2022 for 34 days  
 Bill For:

To report an emergency or an outage, call 24 hours a day 1-888-544-4977.  
 Bill issued by: Potomac Edison, PO Box 3616, Akron OH 44309-3616  
 To enroll in eBill or pay your bill online, scan the QR code on the right of this bill from your mobile device or go to www.firstenergy.com.  
 For Customer Service, call 1-800-686-0011. For Payment Options, call 1-800-738-3411.

Messages	Account Summary	Amount Due
<b>** REMINDER NOTICE **</b> When this bill was prepared, your account had an unpaid balance. If you have already made this payment, thank you. If not, please promptly pay the overdue amount. Call us if you have questions or for information on payment arrangements. To avoid a 1.5% Late Payment Charge being added to your bill, please pay the Amount Due by the Due Date. Generation, Transmission & Energy Cost Adjustment Price Comparison Information: The current price for Standard Offer Service (SOS) electricity is 6.537 cents/kWh, effective through May 31, 2023. The weighted average price of SOS electricity will be 6.521 cents/kWh through May 31, 2023. The price for SOS from June 1, 2023, through May 31, 2024, will be set in January 2023. Your next meter reading is scheduled to occur on or about Jan 30, 2023. Because you are participating in the Maryland Community Solar program, your bill may include Community Solar credits. These credits will appear as "Community Solar 10" under the "Usage Information" section of your bill. Please contact your Subscriber Organization if you have questions regarding these credits. 5001531263 Pittman Solar One LLC 844-869-5763 A new QR (Quick-Response) Code has been added to your bill. Your Impact	This Month's Solar Credits	Clean Impact CO2 Equivalent
Your subscription to clean solar energy is reducing harmful carbon (CO2) gas emissions.	253.00 kWh	9,815 pounds of coal emissions

If you choose to pay by Credit Card, you will be charged a convenience fee of 2.9% unless prohibited by local law.

## DEFINITIONS

- ☑ **Supply:** The cost of supplying electricity for your usage
- ☑ **Delivery:** The cost of delivering electricity to your home through the power lines
- ☑ **Solar Credits:** Financial incentives created as part of community solar programs to encourage people to use clean energy and lower their carbon footprint

## HOW DO SOLAR CREDITS WORK?

Here's how solar credits work for community solar:

You subscribe to a Nautilus Community Solar farm in your area.

Nautilus will calculate your share of the total energy your farm is expected to produce over the next 12 months.

Based on your share, you earn a solar energy credit for electricity that your community solar farm produces.

These solar credits are then calculated into a dollar value which appears on your monthly Nautilus bills minus a discount of 10% (25% for qualifying low- to moderate-income residents).

It's important to note that the solar credits you earn are based on your share of the energy **produced** not the total energy **used** at home. This does not affect the amount of electricity delivered to your home. You will always receive the right amount you need.

## HOW IS MY SHARE OF THE COMMUNITY SOLAR FARM CALCULATED?

Your share or "allocation" is calculated by:

$$\frac{\text{YOUR 12-MONTH HISTORICAL USAGE}}{\text{AVG ANNUAL COMMUNITY SOLAR FARM PRODUCTION}} = \text{YOUR ALLOCATION \%}$$

From here, we can calculate your monthly solar credits:

$$\text{YOUR ALLOCATION \%} \times \text{TOTAL ENERGY PRODUCED THAT MONTH} = \text{YOUR SOLAR CREDITS}$$
