

UNDERSTANDING YOUR COMMUNITY SOLAR BILL

For a 2-bill option, you will receive 1 bill from your utility (electricity delivery) and 1 bill from Nautilus Solar (Solar Credits earned minus your discount).

YOUR 2-BILL TIMING

Often there is a lag of one or two months between when the **Solar Credits are earned** in a billing cycle and when the **Solar Credits are invoiced** by Nautilus. This lag is because the Solar Credits are transferred between your local utility company and Nautilus as part of the community solar program.

IN THIS NAUTILUS BILL

For the **1/12/23 - 2/9/23** billing period, 842 kWh were applied in Solar Credits. To convert Solar Credits into a monetary value as listed on Nautilus bills:

792* KWH X DELIVERY RATE OF \$0.086420	\$68.44
+ 842 KWH X SUPPLY RATE OF \$0.176310	\$148.45
SUBTOTAL	\$216.89
- 15% PLAN SAVINGS DISCOUNT	\$32.53
TOTAL AMOUNT DUE TO NAUTILUS	\$184.36

* The first 50 kWh is charged by CMP at a flat delivery fee of \$13.66. The delivery rate is set by CMP and the supply rate is determined by the Maine Public Utilities Commission.

 15% Plan Savings: -\$32.53
Athens Total: \$184.36

Total Amount Due: \$184.36

AUTOPAY Scheduled for Apr. 3, 2023

DEFINITIONS

- ☑ **Supply:** The cost of supplying electricity for your usage
- ☑ **Delivery:** The cost of delivering electricity to your home through the power lines
- ☑ **Solar Credits:** Financial incentives created as part of community solar programs to encourage people to use clean energy and lower their carbon footprint

HOW DO SOLAR CREDITS WORK?

Here's how solar credits work for community solar:

You subscribe to a Nautilus Community Solar farm in your area.

Nautilus will calculate your share of the total energy your farm is expected to produce over the next 12 months.

Based on your share, you earn a solar energy credit for electricity that your community solar farm produces.

These solar credits are then calculated into a dollar value which appears on your monthly Nautilus bills minus a discount of 15%.

It's important to note that the solar credits you earn are based on your share of the energy **produced** not the total energy **used** at home. This does not affect the amount of electricity delivered to your home. You will always receive the right amount you need.

HOW IS MY SHARE OF THE COMMUNITY SOLAR FARM CALCULATED?

Your share or "allocation" is calculated by:

$$\frac{\text{YOUR 12-MONTH HISTORICAL USAGE}}{\text{AVG ANNUAL COMMUNITY SOLAR FARM PRODUCTION}} = \text{YOUR ALLOCATION \%}$$

From here, we can calculate your monthly solar credits:

$$\text{YOUR ALLOCATION \%} \times \text{TOTAL ENERGY PRODUCED THAT MONTH} = \text{YOUR SOLAR CREDITS}$$

GREAT NEWS! ONE-BILL OPTIONS NOW AVAILABLE TO MAINERS

As a resident of Maine, you now have the option to choose to receive a consolidated bill from Nautilus making it even easier to see your monthly energy savings. If you'd like to opt in for one-bill, contact the Customer Care Team via customercare@nautilus.com or phone at 866-969-4129.
